

European Project Center

Horizon Europe

Turn your project idea into a successful proposal

COMP-ECO Workshop

20.-21.06.2023

Warsaw, PL

WORKSHOP AGENDA

From idea to submission

**1.
Get started**

**2.
Build your consortium**

**3.
Define your objectives**

**4.
Your pathway to impact**

**5.
Measures to maximise your impact**

**6.
Develop your work plan**

**7.
Analyze potential risks**

**8.
Address cross-cutting issues**

**9.
Tips and Tricks**

GET STARTED

How are my project results linked to policy priorities?

EU Policy Priorities

(Green Deal, Fit for the digital age, ...)

Key Strategic Orientations

(Strategic objectives where R&I is expected to make a difference)

Impact areas

Transformations to be fostered through R&I

Expected Impacts = Destinations

Expected Outcomes = Topics

Your project results

Strategic Plan
2021-2024

Work Programme
2021-2022

GET STARTED

How to read a topic description?

HORIZON-CL5-2023-D3-02-15: CRITICAL TECHNOLOGIES TO IMPROVE THE LIFETIME, EFFICIENT DECOMMISSIONING AND INCREASE THE CIRCULARITY OF OFFSHORE AND ONSHORE WIND ENERGY SYSTEMS

TOPIC STRUCTURE:

- Identifier + Title
- Conditions for the Call (incl. deadline)
- Specific conditions
- Scope
- Expected outcome

GET STARTED

Analyze your topic: Identifier

HORIZON-CL5-2023-D3-02-15: CRITICAL TECHNOLOGIES TO IMPROVE THE LIFETIME, EFFICIENT DECOMMISSIONING AND INCREASE THE CIRCULARITY OF OFFSHORE AND ONSHORE WIND ENERGY SYSTEMS

Cluster 5: "Climate, Energy and Mobility"
Policy priorities:

- Going Climate-Neutral by 2050
- A Clean Planet for all
- United Nations Sustainable Development Goals

GET STARTED

Analyze your topic: Identifier

HORIZON-CL5-2023-D3-02-15: CRITICAL TECHNOLOGIES TO IMPROVE THE LIFETIME, EFFICIENT DECOMMISSIONING AND INCREASE THE CIRCULARITY OF OFFSHORE AND ONSHORE WIND ENERGY SYSTEMS

Destination 3: "Sustainable, secure and competitive energy supply"

- Key Strategic Orientations (KSO): Make Europe the first digitally enabled circular, climate-neutral and sustainable economy / lead the development of key enabling and emerging technologies
- Impact Area: industrial leadership in KET; affordable clean energy
- Expected Impact: Clean and sustainable transition of the energy and transport sectors towards climate neutrality facilitated by innovative cross-cutting solutions

GET STARTED

Analyze your topic: Specific Conditions

HORIZON-CL5-2023-D3-02-15: CRITICAL TECHNOLOGIES TO IMPROVE THE LIFETIME, EFFICIENT DECOMMISSIONING AND INCREASE THE CIRCULARITY OF OFFSHORE AND ONSHORE WIND ENERGY SYSTEMS

Expected EU contribution per project

The EU estimates that an **EU contribution of around EUR 4.00 million** would allow these outcomes to be addressed appropriately. Nonetheless, this does not preclude submission and selection of a proposal requesting different amounts.

Medium consortium with 5 - 10 partners

GET STARTED

Analyze your topic: Specific Conditions

HORIZON-CL5-2023-D3-02-15: CRITICAL TECHNOLOGIES TO IMPROVE THE LIFETIME, EFFICIENT DECOMMISSIONING AND INCREASE THE CIRCULARITY OF OFFSHORE AND ONSHORE WIND ENERGY SYSTEMS

Indicative budget

The total indicative budget for the topic is **EUR 12.00 million**.

3 projects to be funded

GET STARTED

Analyze your topic: Specific Conditions

HORIZON-CL5-2023-D3-02-15: CRITICAL TECHNOLOGIES TO IMPROVE THE LIFETIME, EFFICIENT DECOMMISSIONING AND INCREASE THE CIRCULARITY OF OFFSHORE AND ONSHORE WIND ENERGY SYSTEMS

Type of Action	Research and Innovation Actions
Technology Readiness Level	Activities are expected to achieve TRL 5 by the end of the project – see General Annex B.

Position of project between idea and market: Validation in relevant environment

BUILD YOUR CONSORTIUM

Participation Rules

Collaborative projects:

- at least **one** independent legal entity established in a **Member State**, and
- at least **two** other independent legal entities each established either in a **different Member State or an Associated Country**.

BUILD YOUR CONSORTIUM

Who is eligible for funding?

EU COUNTRIES

- Member States (MS) including their outermost regions
- The Overseas Countries and Territories (OCTs) linked to the MS.

NON-EU COUNTRIES

- Countries associated to Horizon Europe (AC)
- Low and middle income countries: See [HE Programme Guide](#).
- Other countries when announced in the call or exceptionally if their participation is essential

SPECIFIC CASES

- Affiliated entities established in countries eligible for funding.
- EU bodies
- International organisations (IO):
 - International European research organisations are eligible for funding.
 - Other IO are not eligible (only exceptionally if participation is essential)

DEFINE YOUR PROJECT OBJECTIVES

Right questions:

What do I want to achieve?

What should be achieved?

What is my vision?

Which approach do I choose?

What do I need to achieve in the project in order to (later) achieve the expected impact?

Wrong question:

What do I want to do?

Objectives \neq Workplan

R

T

HORIZON EUROPE STRUCTURE

Pillar I

EXCELLENT SCIENCE

reinforcing and
extending the
excellence of the
Union's science base

Pillar II

GLOBAL CHALLENGES & EUROPEAN INDUS- TRIAL COMPETITIVENESS

boosting key
technologies and
solutions underpinning
EU policies & Sustainable
Development Goals

Pillar III

INNOVATIVE EUROPE

stimulating
market-creating
breakthroughs and
ecosystems conducive to
innovation

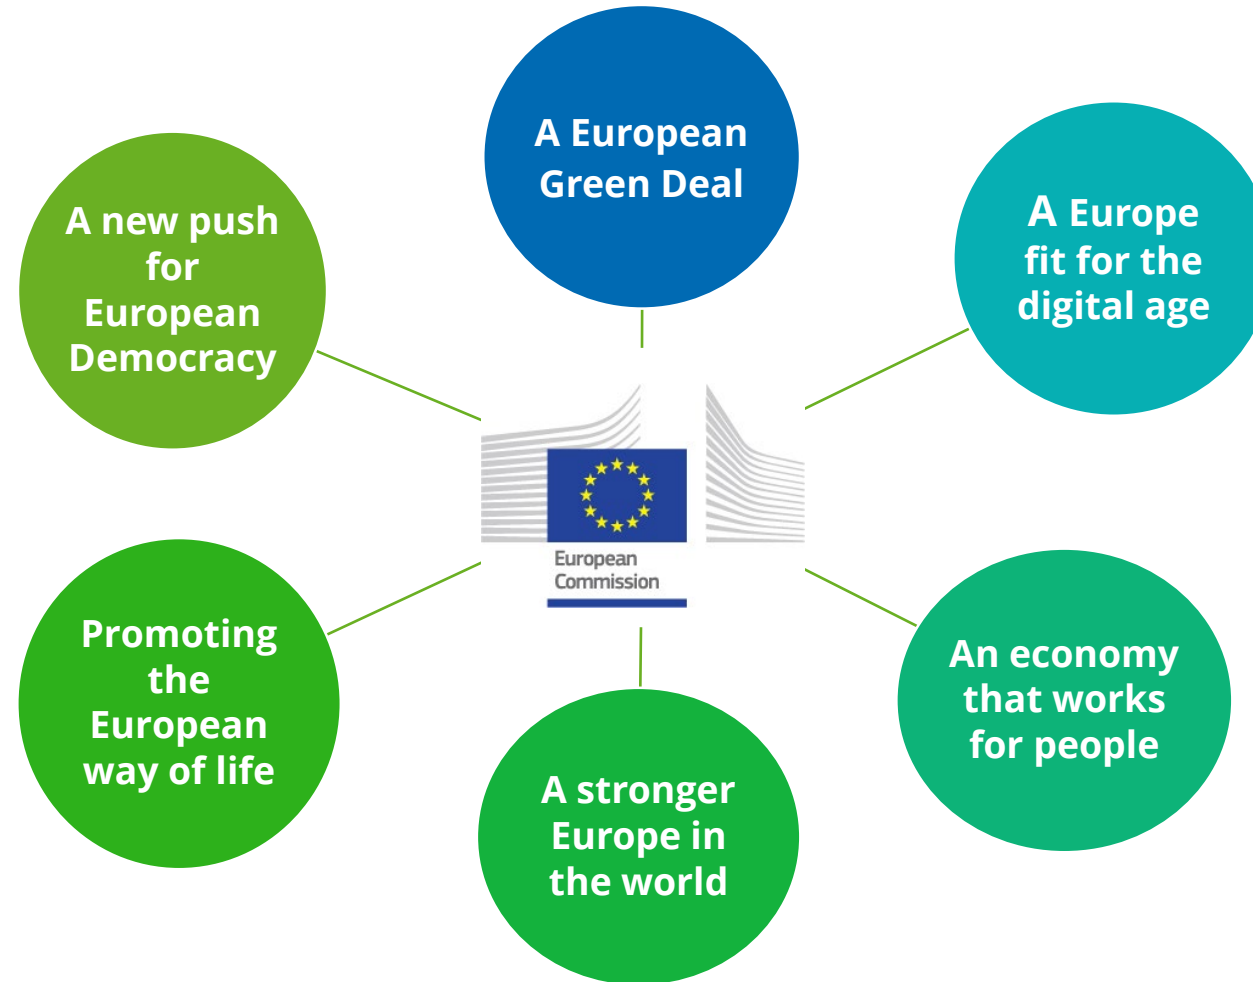

WIDENING PARTICIPATIONS & STRENGTHENING THE EUROPEAN RESEARCH AREA

optimising strengths & potential for a more innovative Europe

Your pathway to impact

6 European Commission priorities for 2019-24

YOUR PATHWAY TO IMPACT

Types of impact based on objectives

Scientific impact

Promote scientific excellence, support the creation and diffusion of high-quality new fundamental and applied knowledge, skills, training and mobility of researchers, attract talent at all levels, and contribute to full engagement of Union's talent pool in actions supported under the Programme.

Societal impact

Generate knowledge, strengthen the impact of R&I in developing, supporting and implementing Union policies, and support the uptake of innovative solutions in industry, notably in SMEs, and society to address global challenges, inter alia the SDGs

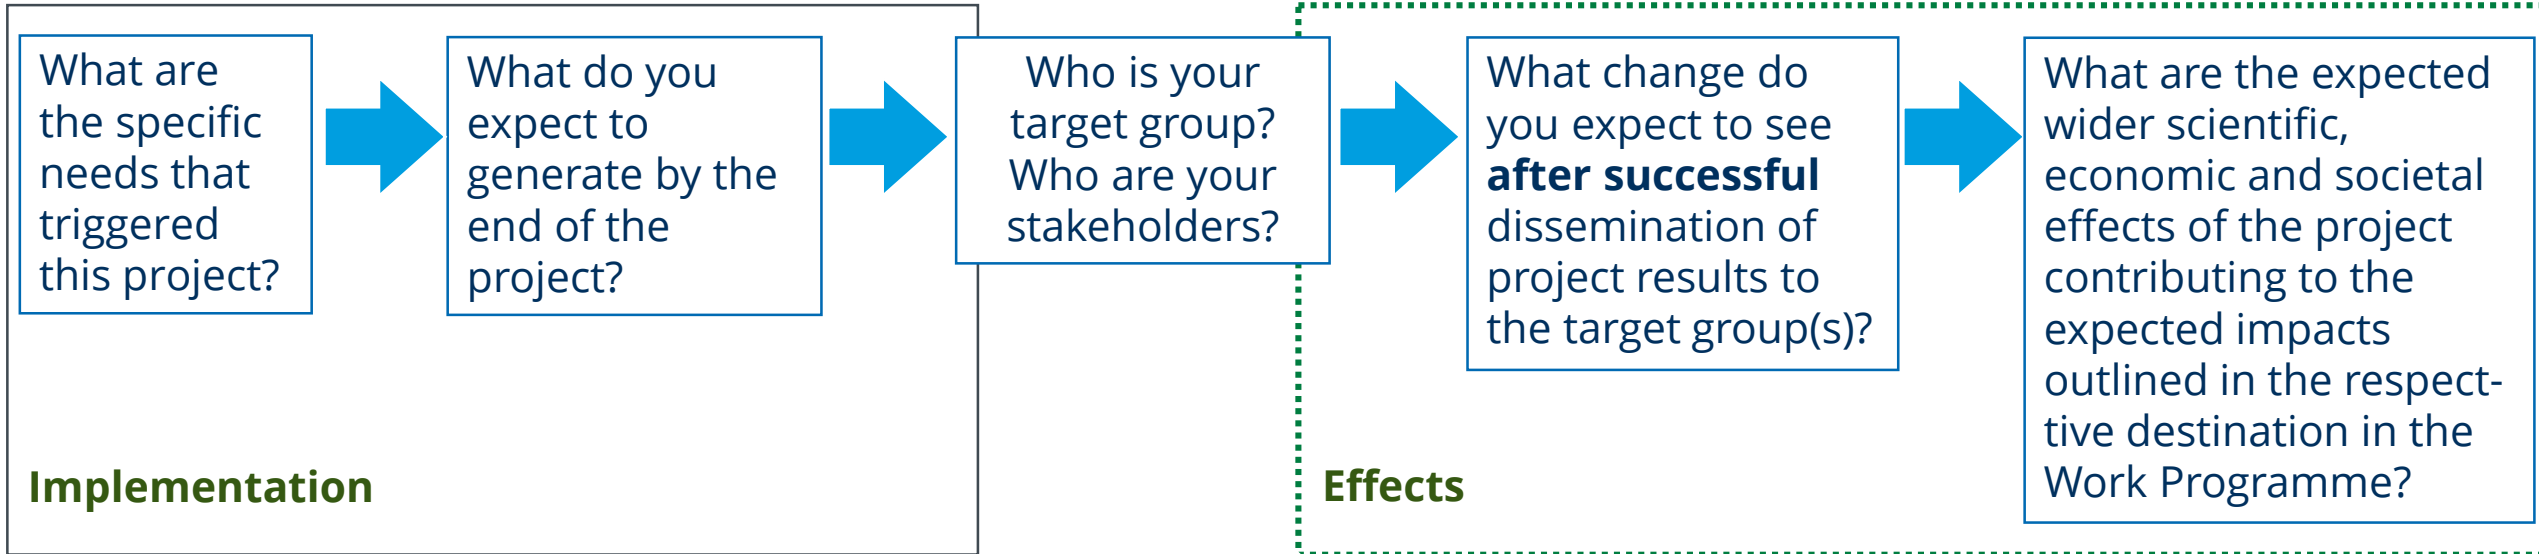

Economic impact

Foster all forms of innovation, facilitate technological development, demonstration and knowledge transfer, and strengthen deployment of innovative solutions

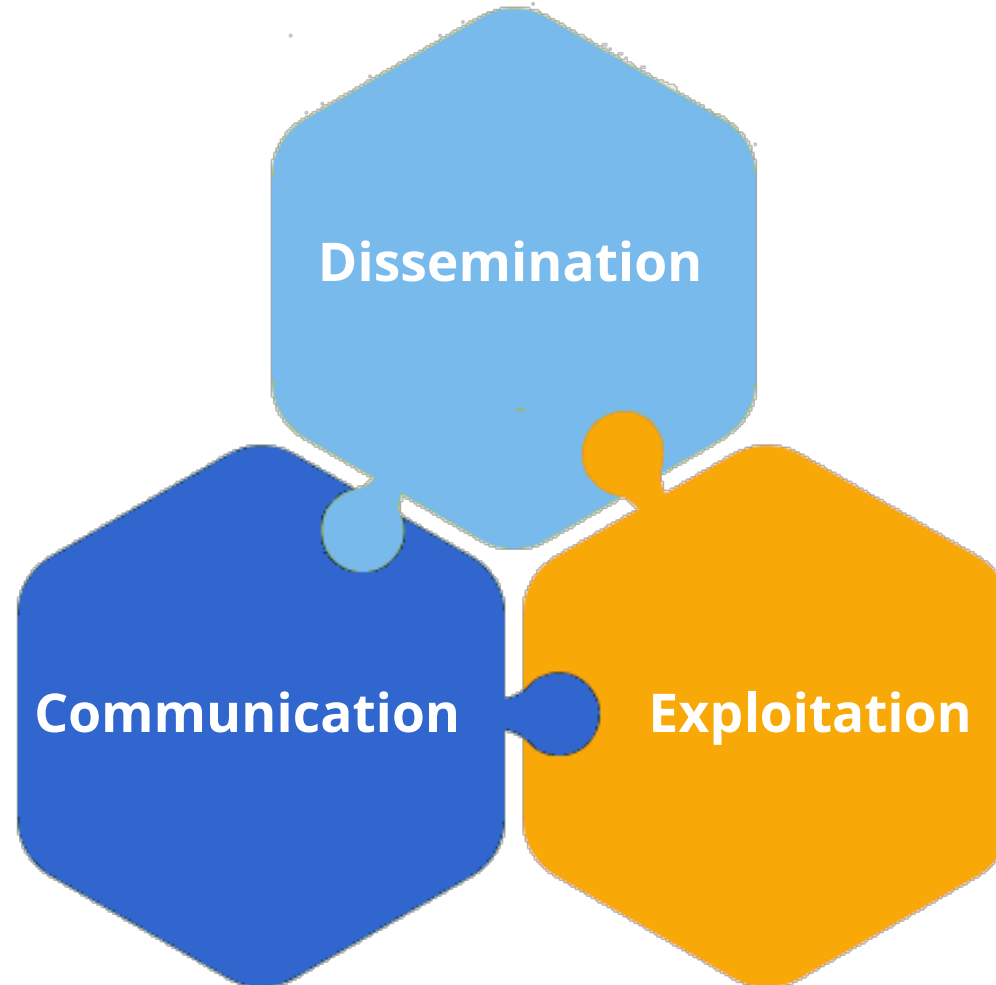

YOUR PATHWAY TO IMPACT

Project's pathway towards impact

MEASURES TO MAXIMIZE IMPACT

Dissemination, communication, exploitation

MEASURES TO MAXIMIZE IMPACT

Communication

- About the project and results
- Multiple audiences
Beyond the project's own community
(include the media and the public)
- Inform and reach out to society,
show the benefits of research

vs.

Dissemination

- About results only
- Audiences that may use the results in
their own work
- e.g. peers, industry and other
commercial actors, professional
organisations, policymakers
- Enable use and uptake of results

MEASURES TO MAXIMIZE IMPACT

Dissemination

- Describe and make results visible
- To audiences that may use the results
- That may enable their use and uptake

vs.

Exploitation

- Actual use of the results for scientific, societal, economic purposes or for policy making
- All results generated during the project lifetime but also after its end

DEVELOP YOUR WORK PLAN

Detailed Work Package Description

List of work packages

Work package No	Work Package Title	Lead Participant No	Lead Participant Short Name	Person-Months	Start Month	End month

Work package description

Work package number	
Work package title	
Objectives	
Description of work	
<i>Task 1.1: Name of Task</i>	<i>(Mxx-Myy; lead: XYZ; others: XXX, XYZ, ABC)</i>
Description of task.	
<i>Task 1.2: Name of Task</i>	<i>(Mxx-Myy; lead: XYZ; others: XXX, XYZ, ABC)</i>
Description of task.	

List of Deliverables

Number	Deliverable name	Short description	Work package number	Short name of lead participant	Type	Dissemination level	Delivery date (in months)

-  **Split all activities** in the project into tasks
-  **Group tasks into WPs** and formulate the WPs' objectives
-  Show **interconnections/relations/interaction** between WPs
-  Appoint a responsible leader (= **WP Leader**) and involved partners
-  Derive **duration** and **effort** from tasks
-  Define **deliverables** (results)

DEVELOP YOUR WORK PLAN

Work Packages, Tasks

Objectives:

Manage project efficiently

WP Project Management

- Scientific/Technical Coordination
- Administrative Management
- ...

Develop, research, test, validate....

Technical WPs

- Task x.1
- Task x.2

Inform about the project, disseminate results develop exploitation pathways

WP Dissemination, Exploitation, Communication

- Communication material
- Dissemination, Exploitation and Communication Plan
- Exploitation road map

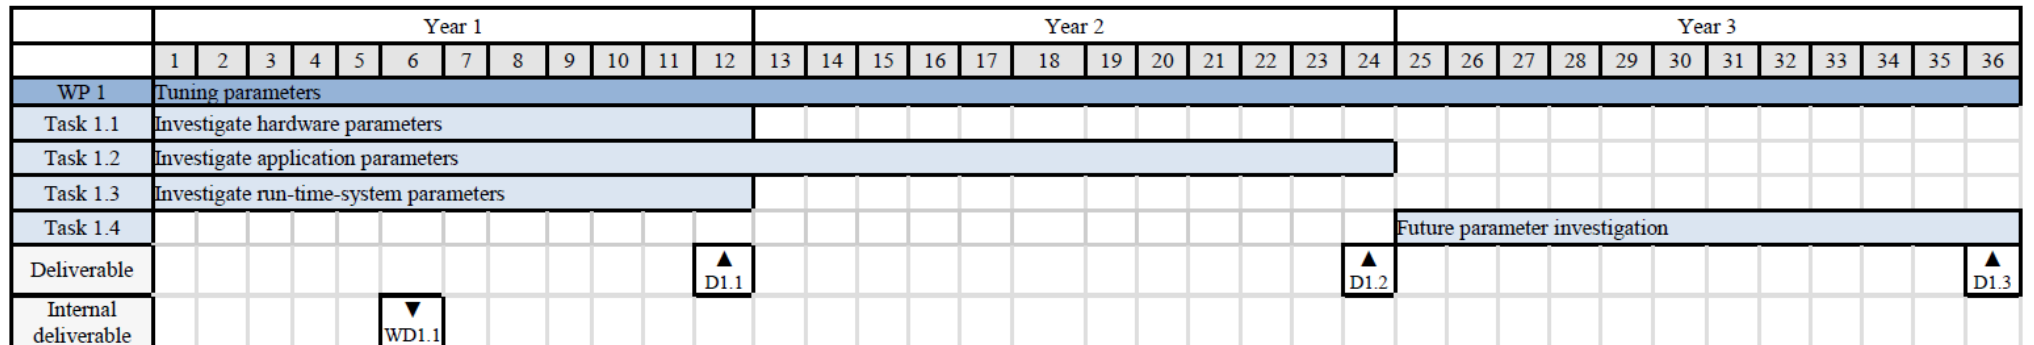

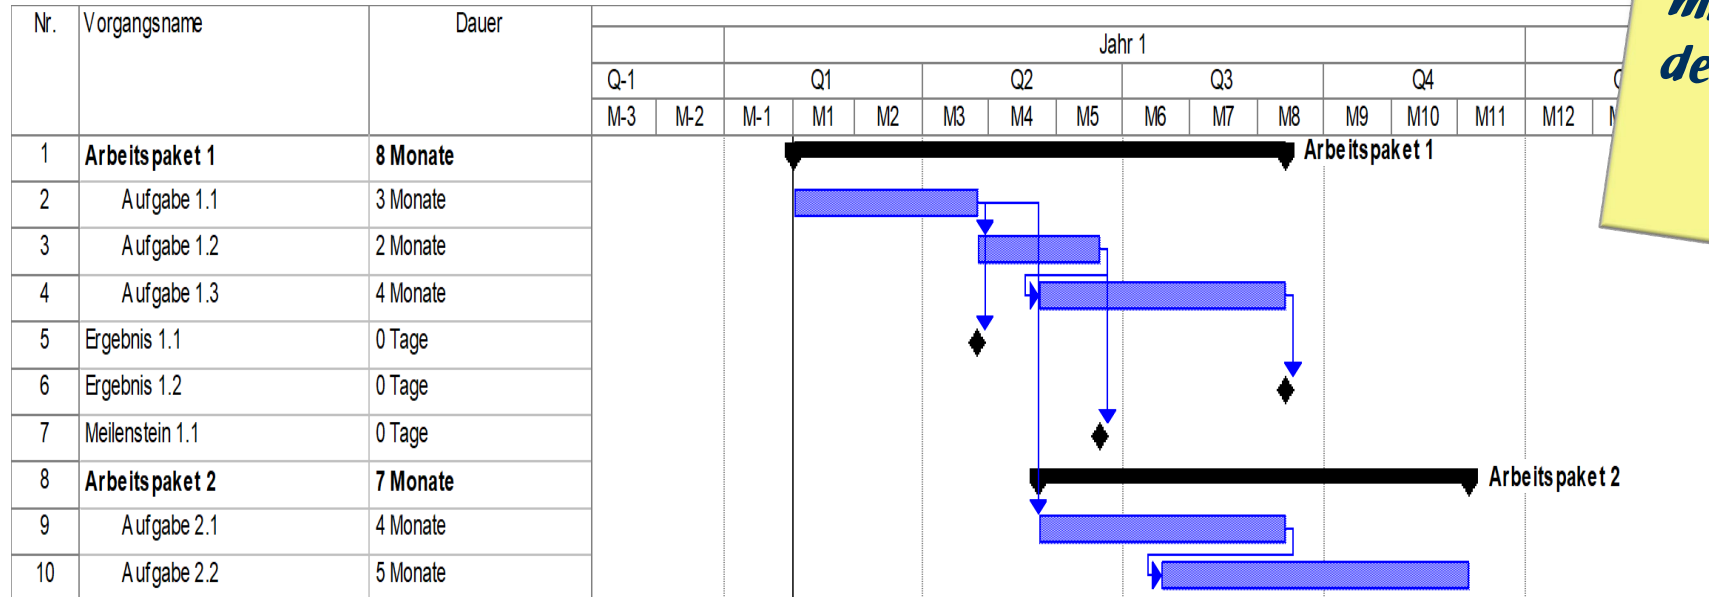

4-6 WPs

more WPs for lump sum projects

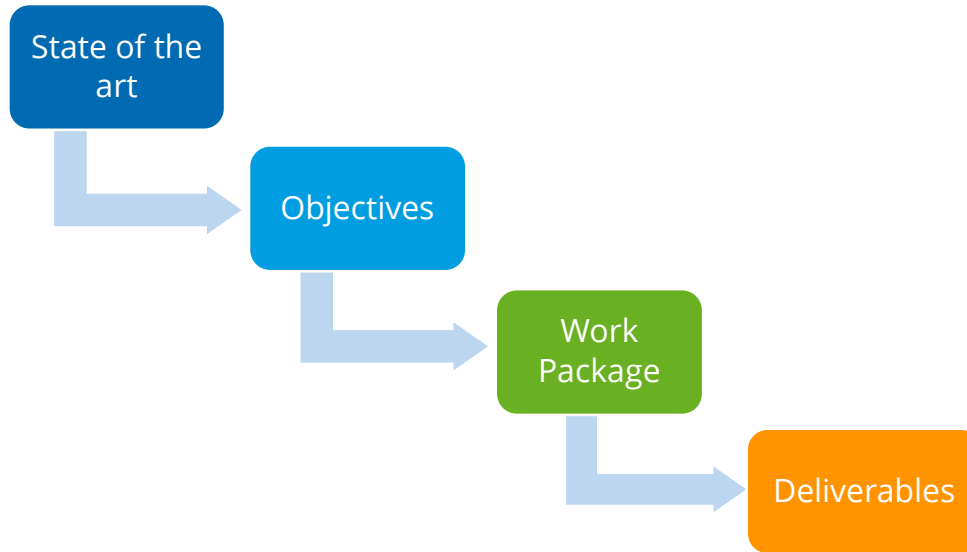

DEVELOP YOUR WORK PLAN

Time planning - GANTT

DEVELOP YOUR ACTION PLAN

Deliverable vs. Milestone

Deliverable

= Output of a certain task

- ✓ Basis for success and progress monitoring of EC
- ✓ E.g. report, prototype, formula, description of procedure, event

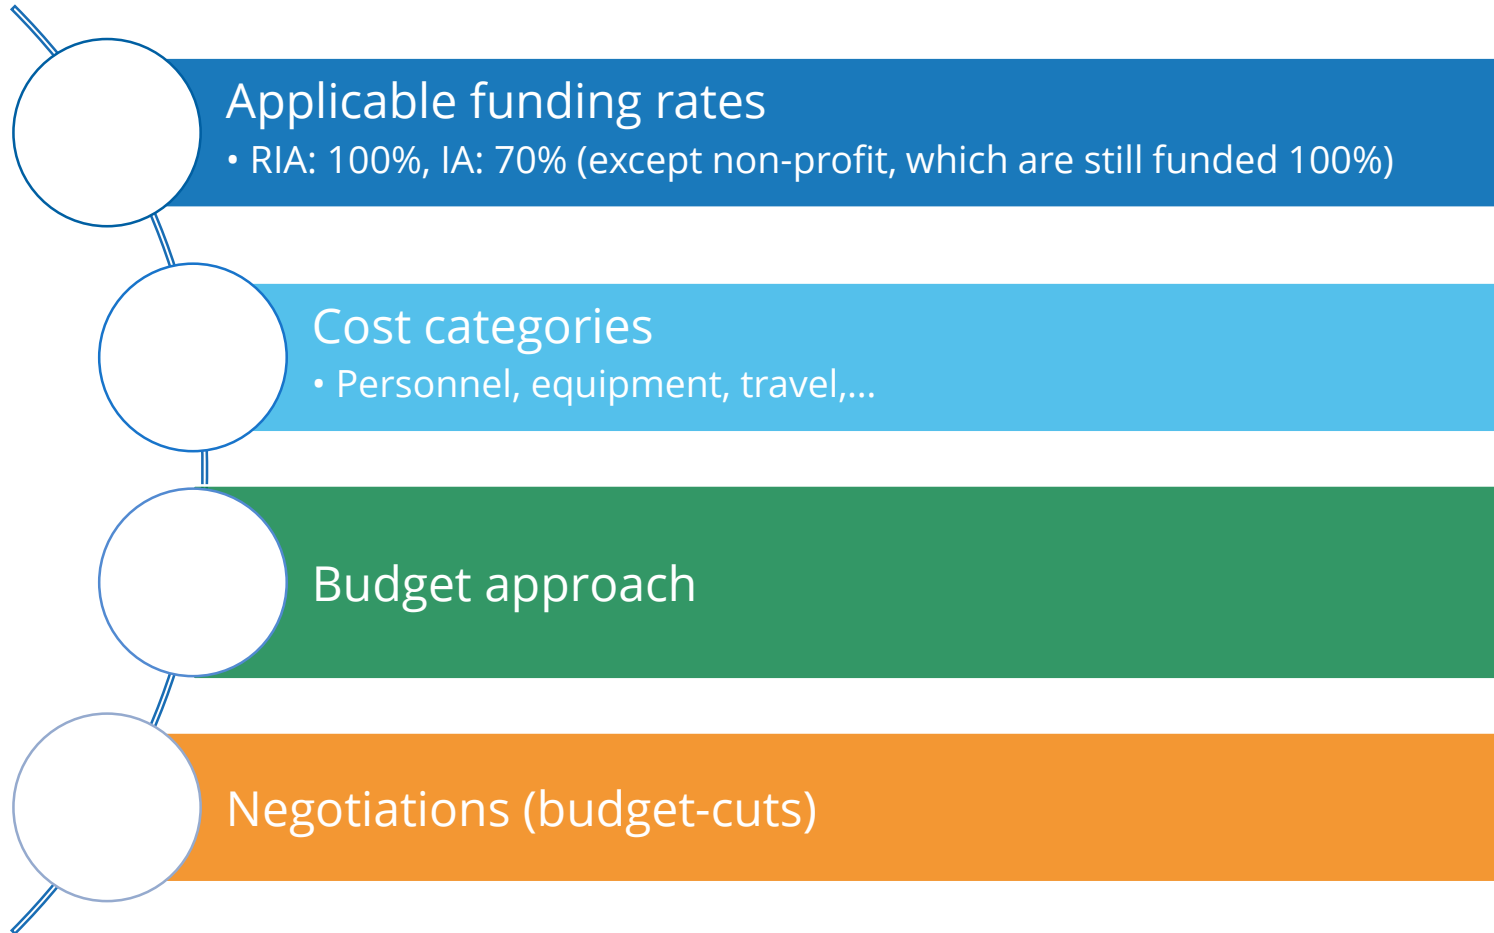

Milestone

= Control point; important interim objective

- ✓ Important tool to monitor progress
- ✓ Assure evidence!

DEVELOP YOUR ACTION PLAN

Resource planning

DEVELOP YOUR WORK PLAN

Resource planning

PM = person months = human effort (time) devoted to the project/WP based on full-time equivalent

ANALYZE POTENTIAL RISKS

Process of Risk Analysis

CROSS CUTTING ISSUES

Gender equality & inclusivness

- Gender equality as a cross-cutting principle
- Aim: eliminating gender inequality
- Three different levels
 - **Gender equality plan**
 - **Gender dimension**
 - **Gender balance project team**

CROSS CUTTING ISSUES

Gender dimension in R&I content

- Part of **Excellence section**
- **Mandatory**, unless explicitly mentioned in topic description
- Sex and gender have to be taken into account in the **whole research & innovation process**

*A justification
has to be given if
no gender
dimension is
included in your
proposal.*

CROSS CUTTING ISSUES

Gender dimension – Why is it important?

- Why do we observe differences between women and men in infection levels and mortality rates in the COVID-19 pandemic?
- Does it make sense to study cardiovascular diseases only on male animals and on men, or osteoporosis only on women?
- Does it make sense to design car safety equipment only on the basis of male body standards?

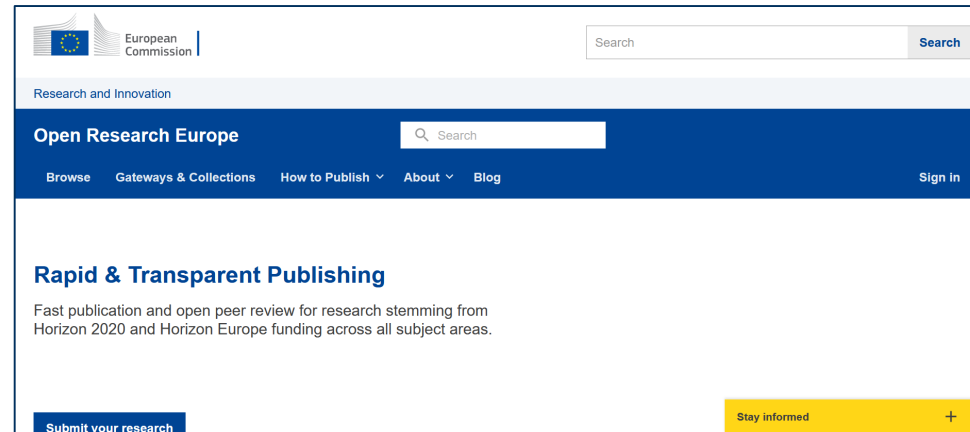

CROSS CUTTING ISSUES

Open science practices

- Part of **Excellence section**
- Open science practices
 - **Mandatory** open science practices (open access to scientific publication, open access to research data)
 - **Recommended** open science practices (open peer reviews, pre-prints, citizen engagement, preregistrations, ...)
- **Previous experiences** of partners evaluated positively
- **Part A:** preferable open access publications!

CROSS CUTTING ISSUES

Open access publications

- Mandatory **immediate Open Access** to publications
- Sufficient IPRs has to be retained to comply with open access requirements (**CC BY**)
- Possible tool: **Open Research Europe** publishing platform

CROSS CUTTING ISSUES

Open access research data

FAIRe data management

A short data management plan has to be written already at proposal writing stage.

Findable

Accessible

Interoperable

Reusable

CROSS CUTTING ISSUES

Ethical issues

- **Human participants?**
- **Personnel data?**
- **Human cells?**
- **Artificial intelligence?**
- **Harmful substances?**
- ...

*All ethical issues
have to be
addressed in your
proposal.*

CROSS CUTTING ISSUES

Do not significant harm principle (DNSH)

- Economic activities should **not make significant harm to any of the six environmental objectives** (EU Taxonomy Regulation)
- Refer to DNSH principle when presenting **research methodology** and expected **impacts**
- Applications not scored in relation to their compliance with the DNSH principle unless explicitly stated

***Do not make harm
to any of the six
environmental
objectives!***

CROSS CUTTING ISSUES

Do not significant harm principle (DNSH)

Climate change mitigation

Sustainable use & protection of water & marine resources

Pollution prevention & control

Climate change adaptation

Transition to a circular economy

Protection and restoration of biodiversity & ecosystems

Six environmental objectives have to be respected!

CROSS CUTTING ISSUES

Artificial Intelligence

- **Trustworthiness** of all AI-based systems/ techniques **used or developed** required
- Evaluation under the **excellence** criterion
- **Technical robustness**
 - refers to **technical aspects of AI** systems and development
 - including **resilience to attack** and **security**, fullback plan and general safety, accuracy, reliability and reproducibility

*Used or developed
AI has to be
trustworthy!*

TIPS AND TRICKS

Submission portal

Call data
Call: HORIZON-CL5-2023-D3-02
Topic: HORIZON-CL5-2023-D3-02-15
Type of action: HORIZON-RIA
Type of MGA: HORIZON-AG
⚠️ Topic and type of action can only be changed by creating a new proposal.

Proposal data
Acronym: COMP-ECO Test
Draft ID: SEP-210960578

Download Part B templates
Download part B templates

Administrative forms (Part A)
Edit forms View history Print preview

Part B and Annexes
In this section you may upload the technical annex of the proposal (in PDF format only) and any other requested attachments.
Part B * Upload

⚠️ Your proposal contains changes that have not yet been submitted.

ⓘ In this step you can edit the Administrative Forms and upload the proposal and its annexes. You may return to this step from the 'My Proposals' section of the Funding & Tenders Portal.
Submit your proposal as early in the process as possible - you can update and resubmit an improved version many times before the call closure.
Submitting a proposal will overwrite any previous versions of this same proposal - this process is irreversible.
Any changes made to the proposal will not be available to the European Commission service unless resubmitted before the call closure.

ADMINISTRATIVE Part A

YOUR PROJECT STORY Part B

Application Forms
Please check our [FAQ](#) for help on navigating the form.

Horizon Europe
Application forms (Part A)

Topic:
Type of action:
Type of Model Grant Agreement:
Proposal number:
Proposal acronym:

Table of contents

Section	Title	Action
1	General information	
2	Participants	
3	Budget	
4	Ethics and security	
5	Other questions	

The forms must be filled in for each proposal using the templates available in the Submission System. Some data fields in the forms are pre-filled based on the previous steps in the Submission wizard.

Proposal template Part B: technical description
(for full proposals: single stage submission procedure and 2nd stage of a two-stage submission procedure)

This template is to be used in a single-stage submission procedure or at the 2nd stage of a two-stage submission procedure.

The structure of this template must be followed when preparing your proposal. It has been designed to ensure that the important aspects of your planned work are presented in a way that will enable the experts to make an effective assessment against the evaluation criteria. Sections 1, 2 and 3 each correspond to an evaluation criterion.

Please be aware that proposals will be evaluated as they were submitted, rather than on their potential if certain changes were to be made. This means that only proposals that successfully address all the required aspects will have a chance of being funded. There will be no possibility for significant changes to content, budget and consortium composition during grant preparation.

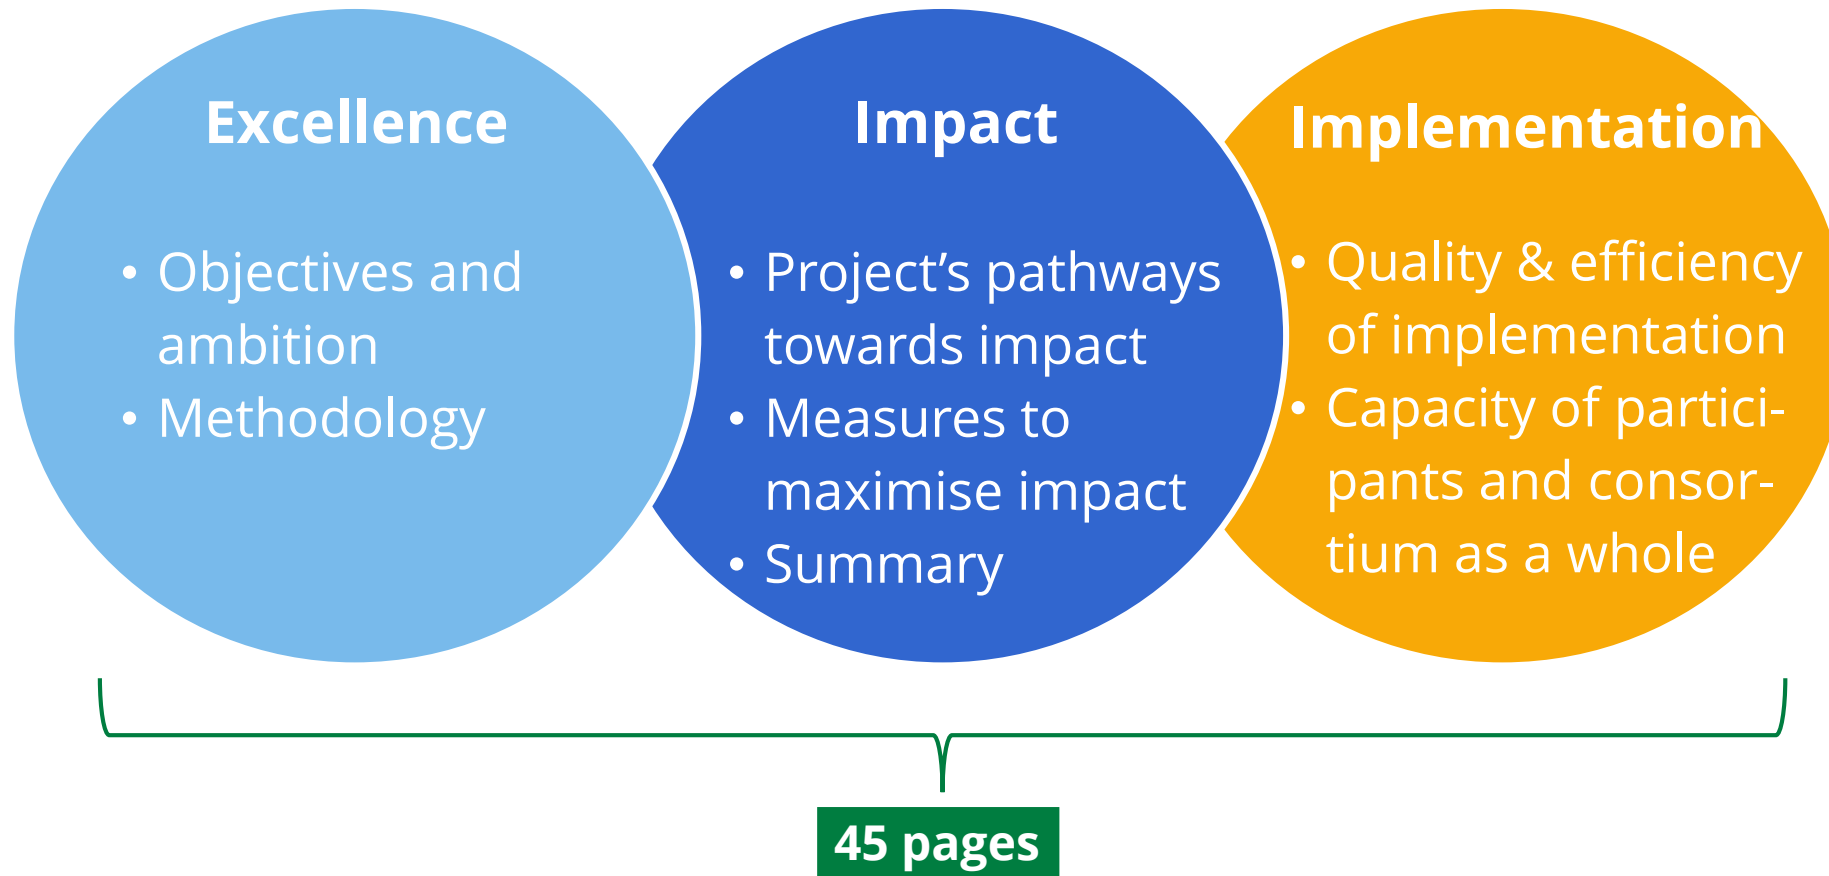

⚠ Page limit: The title, list of participants and sections 1, 2 and 3, together, should not be longer than 45 pages. All tables, figures, references and any other element pertaining to these sections must be included as an integral part of these sections and are thus counted against this page limit.

The page limit will be applied automatically; therefore you must remove this instruction page before submitting.

If you attempt to upload a proposal longer than the specified limit before the deadline, you will receive an automatic warning and will be advised to shorten and re-upload the proposal. After the deadline, excess pages (in over-long proposals/applications) will be automatically made invisible, and will not be taken into consideration by the experts. The proposal is a self-contained document. Experts will be instructed to ignore

DRAFT YOUR PROPOSAL

Proposal documents: Project Story – Part B

TIPS AND TRICKS

Formal requirements

- Administrative criteria
- Page limit and formatting requirements
- Maximum funding to be requested
- Requirements on consortium
- When and how to submit
- Completeness of proposal documents

TIPS AND TRICKS

What are the evaluation criteria?

EXCELLENCE

max
5 pt

- Clarity and pertinence of the **project's objectives**, and the extent to which the proposed work is ambitious, and goes **beyond the state-of-the-art**.
- Soundness of the proposed **methodology**, including the underlying concepts, models, assumptions, interdisciplinary approaches, appropriate consideration of the **gender dimension** in research and innovation content, and the quality of **open science practices** including sharing and management of research outputs and engagement of citizens, civil society and end users where appropriate.

IMPACT

max
5 pt

- Credibility of the **pathways** to achieve the expected **outcomes and impacts** specified in the work programme, and the likely scale and significance of the contributions due to the project.
- Suitability and quality of the **measures to maximize expected outcomes and impacts**, as set out in the dissemination and exploitation plan, including communication activities.

weighted
1.5 for IA

QUALITY & EFFICIENCY OF THE IMPLEMENTATION

max
5 pt

- Quality and effectiveness of the **work plan**, assessment of **risks**, and appropriateness of the **effort** assigned to work packages, and the **resources** overall.
- Capacity and role of each **participant**, and extent to which the **consortium** as a whole brings together the necessary expertise.

European Project Center

THANK YOU!
